

GOOGLE APPS FOR EDUCATION

WHAT IS GOOGLE APPS FOR EDUCATION?

All in one solution.

Google is currently offering schools a hosted solution for their email, calendar, and chat through Google Apps for Education, our integrated communication and collaboration solution. Additionally, you can complement the core suite to meet your users' needs, with access to dozens more Google

WHY GOOGLE APPS FOR EDUCATION?

It is everything your school needs. Security, stay connected, study together, get stuff done, invisible IT, Green Security and privacy first.

Google Apps for Education includes dozens of critical security features specifically designed to

keep your data safe, secure and in your control. Your data belongs to you, and Apps tools enable you to control it, including who you share it with and how you share it. Our data center network provides exceptional security and guarantees* reliable access to your data.

(24x7x365.25 (that's right: no rest, even on leap years).

Everything is backed up. You own and control your data, Increased security and reliability, Strong encryption and authentication

Our team is constantly improving your security. Your privacy is respected.

SECURITY AND PRIVACY FIRST

“The scale of Google's operation is that they can afford to spend much more on security than we can. In fact, they can afford to spend more on security than most governments. They use biometrics including retinal scanning and thermographics for

access control, their data centre hardware is built by them, and they completely destroy decommissioned discs by overwriting the data, crushing them, shredding them, and then recycling the materials. Their infrastructure is built with failure in mind, they have

multiple connections from different providers to the internet, and all of their data centres...”

Dr Christine Sexton, CIO,
University of Sheffield

EVERYTHING IS CONNECTED

With Google Apps for Education, everything is automatically saved in the cloud - 100% powered by the web. This means that emails, documents, calendar and sites can be accessed - and edited - on almost

any mobile device or tablet. Anytime, anywhere. On your Android, iPhone, BlackBerry, Windows Phone e.t.c. We bring students, teachers and teams together. Fast, easy collaboration is what makes Google Apps

unique. Powerful sharing controls, and seamless compatibility – an ideal environment for learning in the 21st century.

REDUCED COSTS

Moving to Google Apps helps reduce both your organization's overall expenses and its environmental impact. Apps is powered by Google's energy-efficient data centers, so it's less energy and carbon-in-

tensive than on-premise servers.

Reduction in costs, and your environmental footprint have become primary issues in most learning institutions and its quickly becoming a global

problem which many solution companies are beginning to recognise. What we offer will not only place you at the forefront of innovation but also help you get sustainable with carbon-neutral IT.

HAPPIER STUDENTS AND STAFF

Gmail, Calendar, Docs and more. You and your school will love what Google Apps can do. See why
What other schools are using google apps for education
From preschool, schools across Africa are using

technology to enhance learning on campus and online. Here are three examples of schools in Nigeria, South Africa and Kenya that have made incredible strides with Google for Education.
The Distance Learning

Centre (DLC) of Nigeria's University of Ibadan was established in 1988 with the aim of providing Off-campus learning options to students whose schedules and locations make it hard for them to study on campus.
